

The Plan to Modernize

AFSC 2.0: The Innovation Age

Investments Across Five Dimensions

Digital Sustainment & Human Capital

Alignment to:

- Operational Imperatives
- Action Orders
- SAF/MG
- HAF/A4 BLES
- AFMC, AFSC Strat Plans

- Produce to *promise*
- Process is *how* we do it
- People make it *happen*
- Prepare for *future competition and warfighting*

OIB Modernization: • Facilities • Infrastructure • Equipment • Digital Depot • Human Capital

Art of the Possible (AoP) 2.0: • Innovation • Advancing the Leadership Culture • Personnel Development

Business Process Modernization: • Logistic Capability Initiatives (ERP) • Logistic Processes (Non-ERP)

“From Freedom’s Forge” to Our Digital Future

~ 5M Rosie the Riveters built 300K airplanes*

Our initiative is to provide next gen opportunities to exceed current and future warfighting capabilities. In WWII, DoD and private industry established non-traditional roles to create a manufacturing juggernaut that hasn’t been seen since.

To ensure the United States Air Force is prepared to fight and win the next war, the AFSC is on a journey to take on non-traditional roles with private industry to assemble and manufacture commodities in-house.

Rock-Ola (jukeboxes) made M1 carbine rifles**

Frigidaire (refrigerators) made .30 caliber machine guns**

AFSC LOGISTICS DIRECTORATE

Our Digital Future

Amplify AFSC opportunities to provide next gen warfighting capabilities.

“From *Freedom’s Forge*” to Our **Digital Future** encompasses once core non-traditional methodology and three Lines of Effort (LoE).

Scalable and Expandable Ventures:

- Increase alignment across AFSC and private industry partners
- Discuss additional opportunities with next gen program office
- Drive an integrated enterprise approach to deliver readiness

AFSC-Private Industry Pilot Program:

- Identify potential projects and develop implementation strategies
- Storefront mentality; local manufacturing
- Expedite foundational development

Match-Making Partnerships:

- Mind-melding with AFSC orgs and private industry partners
- Rapidly synchronize current and future capabilities with opportunities
